

# *WANTED*

## **FILM SET DESIGN INTERNS**

We are looking for two M. Arch graduates to work as film Set Design interns on a sci-fi movie being filmed in New Zealand.

The jobs are based in Wellington, and will be remunerated.

A good working knowledge of Rhino is essential, as is a keen interest in films.

We design and document sets for construction, and so are looking for practical people. Real world construction experience is desirable.

We additionally aim to expose the interns to all aspects of the Art Department, design, props, set decoration, graphics, construction and VFX.

The internships start from December 2018, and will run for 20-30 weeks, spanning pre-production and filming periods.

Please apply with covering letter and CV's (max 3 pages) to:  
Kim Sinclair  
[ksinclair@avtr.com](mailto:ksinclair@avtr.com)

Do not send me huge portfolios at this stage!  
Closing date for submissions: 10 June 2018  
You must be a New Zealand citizen to apply.
