

Boy? Or Girl?

Values of gender and health in Ethnic Communities in New Zealand

We are a research team based at the University of Auckland conducting a study on **Gender Values and Health in Ethnic Communities**

We are looking to interview women and men from ethnic communities who have:

(1) only one girl child under the age of 5 years

or

(2) two or more children and their youngest child is under the age of 5 years;

For more information on our research, see our website <https://genderbiasresearch.auckland.ac.nz>

What does the study involve?

Participants will take part in a semi-structured interview regarding health issues faced by girls/women and boys/men from ethnic communities. Some of the topics we cover include:

- Traditional values and gender inequity
- Impact of migration
- Perceptions of pregnancy and childbirth
- Gendered barriers to health care access

What will this study require of you?

- There will be one 60 minutes semi-structured face-to-face interview
- Interview will be conducted in English or in an Asian/Ethnic language of your preference
- This can be conducted at a place and time that is suitable to you
- Receive countdown vouchers worth \$25 for your time

If you are interested to participate in this research, please get in touch with us at - genderbiasresearch@auckland.ac.nz
