CIGRE NZ 2022 AUTUMN WORKSHOPS

Our CIGRE NZ 2022 Autumn Workshops bring together experts and key players from within the power system industry to share experiences and technical expertise on how our sector is transitioning into the future. The workshop is a confluence of the following co-located events.

8 April, Christchurch

CIGRE NZ.B1 - Insulated Cables Panel

CIGRE NZ.B5 - Protection and Automation Panel

6 May, Auckland

CIGRE NZ.B3 - Substations & Electrical Installations Panel

CIGRE NZ.D2 - Information Systems & Telecommunications Panel

We are providing a platform for power system professionals: engineers, consultants, contractors, generation transmission and distribution owners, system operators, and academics across New Zealand to share and discuss current practices and future directions for progressing our end-to-end renewable power systems. Our A2 and C6 Panels will complete similar technical workshops later in 2022

CIGRE NZ PAST EVENTS REFLECTION

In 2017, CIGRE NZ hosted the CIGRE International Conference and Symposium with more than 200 delegates. One-day technical forums of 50 plus delegates have been held in 2018 and 2019, plus deep dive technical panel sessions embedded within eea2018, 2019, 2021 annual conferences.

To provide increased reach and value to our CIGRE members and the power system community CIGRE NZ launched a live webinar and web-tutorial series in late 2019 now attracting upwards of 100 local and international participants through COVID-19 challenges of 2020 and 2021. The technical series has covered *Insulated Cables*, *Distribution System Fault Locating*, *Transformers for Tomorrow*, *Transmission Protection with High Penetration of Renewable Sources*. Webtutes are co-hosted with CIGRE Australia

In June 2020 an inaugural blended online and venue based event saw over 100 local and international participants attend, and similarly this year at our November on-line conference and tripartite Panel symposiums, plus an inaugural Pacific forum. Our three Panels A2, B1, B5 lead our technical webinars, webtutes, conference symposium knowledge sharing and CIGRE international paper publications for our power systems sector

Invitation for Sponsorship

Advancing our Energy Future

We welcome you to market your brand and associate it with the electrical power system industry's practitioners and leading edge technology and solutions makers using the following sponsorships

Our CIGRE NZ 2022 Workshop is expected to attract 75 delegates many of whom will be technology and business leaders from across the country in CIGRE's global recognition as *the* leading power systems industry knowledge base

Your sponsorship of this event will provide valuable exposure directly to those attending online and at the venue and the organisations that they represent. You will be able to showcase your company's presence within the industry to our participants

We believe the workshop will be a collegiate sharing of knowledge, experience and expertise of technologies, equipment and practices looking toward the changes and uncertainties we now face. We are looking forward to an enjoyable and meaningful event for our participants while aligning your sponsorship message with their experience of a successful event
