The final result

At the end we expect that you will be an even better version of you, with plenty of knowledge, joy and a willingness to spread the word with your new skills and results.

7-9 February 2017

What is ResBaz?

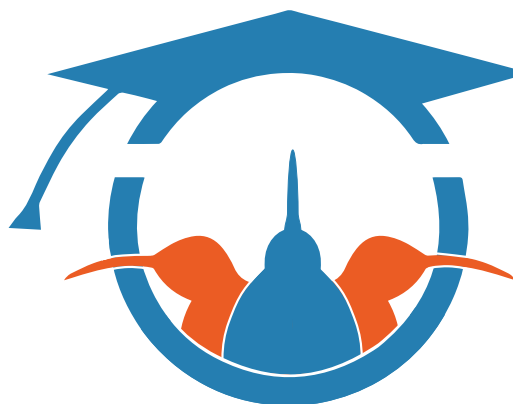

The **Research Bazar (ResBaz)** is a free 3 day festival promoting digital literacy in modern research. This is an annual event to help you master several new research skills whilst having fun.

Really is there more?
That is awesome!!!

We have a bunch of social activities including a market place, games, tech toys and other top secret cool stuff.

We want you curious; we want to surprise you and help you to build up your support community.

ResBaz

RESEARCH BAZAAR
Auckland - New Zealand

Where?

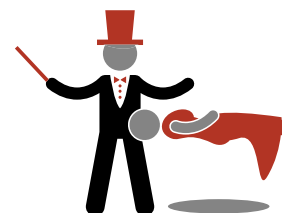

At The **University of Auckland** at the new and awesome Science Building (23 Symonds St).

Anything else?

We know that when your brain is gaining knowledge and your hands are moving, you get hungry. We have a solution for that with delicious food...food for your brain and you.

Research skills?

Attend as many workshops as you can, to discover all the secrets that can make your life easier. Learn all the IT skills that you need for obtaining amazing results in your research including Python, Git, LaTeX, R, Safe Coding and much more.
