

Success Story: Humanitarian Organization for Poverty Eradication

Hope Worldwide-Pakistan (HOPE) Humanitarian Organization for Poverty Eradication, is a non governmental and not-for-profit organization Incorporated under Charitable Trust Act 1957 and a Registered Charity under Charities Act 2005 in New Zealand. We empower the marginalised and those deprived of their rights by providing opportunities and resources. HOPE promotes and safeguards the fundamental human rights of disadvantaged and vulnerable groups including migrants, asylum seekers and refugees, whose lives have been traumatised by disasters, poverty, persecution or discrimination. We help them to discover their latent potential by providing economic, social and financial assistance.

HOPE is aligning with the UN's Sustainable Development Goals. HOPE's work has always been strategically aligned to the 17 Sustainable Development Goals (SDGs) set out by the United Nations (UN).The global agenda for development aims to end poverty, protect the planet and ensure prosperity for all by 2030.

HOPE in its work strives to bring about the positive change envisioned in the SDGs. Most of HOPE's development and humanitarian relief programs are multidimensional; with our focus areas are designed to work across sectors and contribute to multiple SDGs simultaneously. HOPE strives to end poverty through all its programmatic activities, contributing to SDG 1 by delivering a range of projects undertaking both the indicators and structural causes of poverty.

We deliver necessary food aid and implement food security projects aiming to contribute to SDG 2; ending hunger. We have been supporting medical facilities; medical care and supporting hospitals extending healthcare services to ensure healthy lives for all, as per SDG 3. We assist children in gaining quality education in alignment with SDG 4, ensuring inclusive and equitable schooling for all.

To help achieve SDG 5, we make sure all our projects are designed to cater for the particular needs of women and girls so that we can achieve gender equality and empowerment. As per SDG 17, we work with many institutional and local partners to bring in a more coordinated and revitalized global partnership for sustainable development. We work to empower local communities through inclusive and participatory methods, making sure that our beneficiaries are directly involved in creating and implementing projects. We want to build people's capacity so they can achieve a life of dignity, gender equality, food and income security, safety, and resilience to climate change and natural disasters.
