

RESEARCH UNITS, CENTRES AND INSTITUTES

Annual Report Template

Please refer to the University of Auckland Policy on Research Units, Centres and Institutes for more information on reporting and accountability requirements (clause 2.5). A copy of this policy is available from the University Policy Register.

Section 1a - IDENTIFICATION INFORMATION:

Title of Unit, Centre or Institute:	Centre for Mathematical Social Sciences
Name of Director:	Mark Wilson (2014)
Name of Deputy Director:	Matthew Ryan

Section 1b – ENDORSEMENT OF REPORT:

Signatures:	<i>Please sign in appropriate space below</i>
Director (Required for all Units/Centres/Institutes)	
Head of Department (Required only for Department/School Units)	
Dean (Required for Faculty/University Centres/Institutes)	

Section 2 – ADVISORY BOARDS AND MEETING DATES:

Names of Oversight Advisory Board members (for Faculty and University Centres that have Oversight Boards)	
Names of Expert Advisory Board members (for Faculty and University Centres that have Expert Advisory Boards)	
Names of Management Committee Members (for University and Faculty Centres)	
Dates of advisory board and management committee meetings that took place during the year	

Section 3 – PARTICIPATING MEMBERS AND EMPLOYEES/STUDENTS:

Names and Departments of participating members	<p>Mark Wilson (Computer Science), Matthew Ryan (Economics), Arkadii Slinko (Mathematics), Patrick Girard (Philosophy), John Hillas (Economics), Valery Pavlov (ISOM), Geoffrey Pritchard (Statistics), Fernando Beltran (ISOM), Jeremy Seligman (Philosophy)</p> <p>External: Simona Fabrizi (Massey-Albany, Economics), Jack Vowles (VUW, Political Science), Steffen Lippert (Otago, Economics).</p>
List names, positions, and FTEs of all staff employed and postgraduate students involved in the Unit or Centre	PhD students: Nina Anchugina, Sergey

Section 4 – INTRODUCTION:

Provide here a brief introduction to the report (maximum of 300 words)	The CMSS was reviewed a few months ago and has decided to remain a departmental centre for 2014, while we try to expand our influence by maintaining our academic achievements while making greater connections nationally, outside the university sector. We also intend to focus on external funding applications. 2013 was another good year with a well received international workshop and high quality visitors.
--	--

Section 5 – AIMS, GOALS AND FUTURE PLANS:

a. General Aims: Briefly describe the general aims (plans and objectives/goals) of the unit or centre. Identify how they address the University and Faculty Strategic Plan.	We are a group of researchers interested in applying mathematical and computational modelling to social sciences (particularly politics and economics), based at the University of Auckland. The central topic is mathematics of collective decisions made by a group of self-motivated agents. We aim to be a centre of expertise in this area, recognized as a leader in academic and nonacademic circles throughout Australasia. We plan to generate external income via grants and consulting. This relates closely to Objectives 9,10, 13 of the University Strategic Plan, and points 2,6,9,10 of the Faculty Strategic Plan.
b. Goals for Reporting Year: Describe the specific goals for the reporting year.	Run international workshop. Run regular seminar.
c. Plans for Upcoming Year: Outline the plans for the next year. Identify any resource implications.	

Section 6 – MAJOR ACHIEVEMENTS AND OTHER NOTABLE ACTIVITIES:

Report against the specific goals listed in 5b above	
--	--

Summary of major developments and achievements. Identify how these activities contribute to the research capability of the department or faculty (beyond what would be achieved through the activities of the individual members). Please provide greater detail for anything noteworthy that may give useful publicity to the University	
Comment on any co-operative commercial activities, research with other University or Government laboratories or research groups	
Comment on any courses given or workshops and seminars held	

Section 7 - Reviews

Date of last review	Dec 2013 (reviewers P. Bardsley, M. Gahegan)
Review Recommendations List the recommendations of the review and give an update of progress on addressing the recommendations.	It is recommended that: <ul style="list-style-type: none"> • The CMSS continue in existence in some form. • Members of CMSS, along with their Advisory Board, urgently decide on a path forward and commit to it. This might be as an informal research group, or as a Departmental or Faculty Centre. If a path of growth is chosen, then a Faculty Centre might be most appropriate in the longer term, given the interdisciplinary nature of the Centre. However the spread of disciplines across Faculties might make this awkward.

	<ul style="list-style-type: none"> • A stable, annual funding base be negotiated, to be contributed by participating Departments. The amount required will obviously vary on the outcome of #2 above. As a bare minimum, to continue to offer their excellent summer school activities, an operating budget of \$15k-20k needs to be secured annually, and ideally in advance. Given there are several departments involved, this amount does not seem onerous. • Continued establishment and funding should be conditional on preparation of a satisfactory strategic plan, and the achievement of incremental steps towards an expansion of the scope and influence of the Centre. This would be evidenced by external funding and relationships, to contribute towards future growth. • A strategic plan is urgently needed, to specifically address the increase the range of scholarly and policy related partners and stake holders, and to restructure the Advisory Board. We would suggest a three year horizon. • The success and viability of the Centre be assessed not only in financial terms but also through scholarly impact (using metrics appropriate to the relevant disciplines) and through its contribution to public policy and public debate on policy issues on which it has expertise.
--	--

Section 8 – FINANCIAL REPORT

State whether the Unit or Centre has its own Activity Centre/s and list the Activity Centre/s being used	No – all via Mathematics Department.
State sources of funding, for example, from research funds from outside bodies, from the Department or Faculty, or other	Ad hoc grants from Departments of Mathematics, COmputer Science, Philosophy.
List any significant resource allocation decisions taken by the Oversight Board during this reporting year (if	N/A

applicable)	
Include a statement of financial performance (contact Faculty Accountant for assistance), or give a clear explanation of the reasons if there has been no financial activity	

Section 9 – RESEARCH OUTPUTS

Include a list of publications and other research outputs	<p>Skowron, P. K., Faliszewski, P., & Slinko, A. M. (2013). Achieving fully proportional representation is easy in practice. <i>AAMAS</i>: 399-406.</p> <p>Skowron, P. K., Faliszewski, P., & Slinko, A. M. (2013).
