PARTICIPANT INFORMATION SHEET

The Manaiakalani Programme, The Manaiakalani Programme Outreach 1 & 2 Research and Development: Implementation Questionnaire (School Leaders)

Kia ora

We are researchers from the Woolf Fisher Research Centre at The University of Auckland. We are conducting research about The Manaiakalani Programme which your school has joined. The aim of the project is to describe the conditions of accelerated progress within The Manaiakalani Programme in relation to student learning outcomes and effective practices for instruction.

We would like to invite you to take part in this research because you have a leadership position in the school and we are interested in how The Manaiakalani Programme is being implemented in your school.

If you agree we would like you to complete an online questionnaire. We think the questionnaire would take about 20 minutes to complete.

Participation in this research is entirely voluntary. You can withdraw from the research at any time. You can also change your mind and withdraw any information you have already given if you tell us within one month. Neither we nor your school will ask for a reason if you don't want to take part or decide to withdraw.

All the information will be kept safely at the Woolf Fisher Research Centre for six years. We will destroy all information after six years. We will remove your name from any information we collect. We will store consent information separately.

We will share results from the research with staff at the school and other schools in your cluster. We will never use your name or share information that could be used to identify you in any session, report or article.

Thank you very much for considering this. If you have any questions or concerns please phone, email or write to any of us.
