#### **Installing Archicad and System Requirements**

As a student you will have access to multiple types of software for your various subjects and topics. Using Archicad you can work on **Mac or PC.** 

To install Archicad you will require a minimum amount of 16GB RAM and spare space on your computer to have the software running efficiently. If you want to run rendering or graphic software like **Twinmotion** for example that will also have a RAM requirement.

#### https://graphisoft.com/resources-and-support/system-requirements

Ensure your computer meets the standard requirements and allow for future space and projects.
