Welcome to the Better Access Evaluation Consultative Forum

This forum is for discussion of the themes that emerged from the Phase 1 Survey.
You can view the recorded webinar for more information on how to participate in the discussion and how to use Loomio here [URL].

How to participate in consultative forum:

The evaluation team has created a set of "synthesis statements" that express the themes appearing in the survey responses.
The discussion board is organised by broad subject categories under which related synthesis statements are grouped. For example: Workforce Development -> Eligible Providers Synthesis Statements.
To participate in the discussion, you can:

- Contribute your views to the discussion threads under the existing synthesis statements, and comment on other participants contributions

If you would like to raise a new topic for discussion, please let us know directly at betteraccessseval-8@unimelb.edu.au.

We invite you to contribute as frequently as you wish and on as many different synthesis statements as possible.
Participants bring a wide variety of perspectives to the forum, and we remind you that respectful interaction is paramount.
