

Participant Activities

Phase 1 Generate

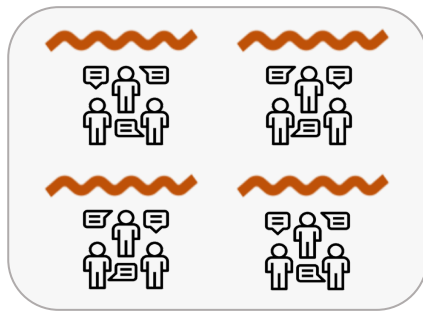

Participants privately generate 3-5 strategies or best practices for managing and building resilience to disinformation, as well as 3-5 priority questions for actionable research

Support Activities

Evaluation team groups related strategies and questions, and drafts synthesis statements reflecting major themes.

Phase 2 Discuss

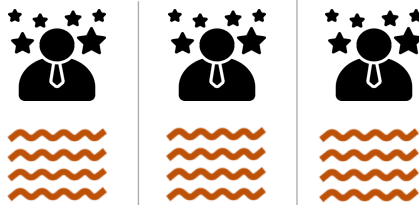

Participants debate statements and suggest revisions in the Loomio online forum.

Evaluation team refines statements and creates rating survey

Phase 3 Assess

Participants indicate level of agreement with statements, and provide comments

Statements endorsed by a clear majority are compiled into the **collective view**, with levels of support and comments.
