Yes

Does the dog walk calmly beside handler at their pace both up and down flights of stairs? (if stairs are used)

Yes

What tasks does the dog demonstrate as an assistance dog? Please note - all ADs passing their PAT must have been trained in at least one task to pass the PAT

pressure on Bella to help during a panic attack.

Has the dog demonstrated any of these tasks today? Please note, it is not a requirement for all PATs to demonstrate tasking as tasking is very context specific.

No

Does the team appear to work well together without signs of anxiety or concern?

Yes

Do you have any further comments on the dog/handler team?

Few small things to work on, limit some pulling while walking on lead, more control when walking off escalators (Meg jumps off at the moment). Nothing to stop Meg from passing, good team of handler and dog.

Did the team pass this Public Access Test?

Yes

If not - give clear feedback on what needs to improve so the team can work on their challenges

No response
