

Guide For The Cleanest Toilet Ever!

"A clean toilet is a happy toilet"

Introduction

This page is your guide to quick and easy toilet cleaning. Your sparkling, fresh smelling toilet will be the envy of all your neighbours! Visitors will remark that yours is the best toilet they've ever used.

If you want to hear all sorts of wonderful things about your toilet, read and follow these instructions carefully and feel the joy of having the cleanest loo in the neighbourhood.

Materials:

- Rubber gloves and mask (important for health and hygiene)
- Toilet brush
- Toilet cleaner (or you can use a cup of white vinegar)
- Bathroom cleaning spray (or you can use vinegar and water in a spray bottle)
- Cleaning sponge

A daily clean is essential for a shiny, fresh loo. You can do it in just 5 minutes with these 5 easy steps!

1. Begin by applying toilet cleaner to the bowl, and allow it to soak. If you're using vinegar, simply pour a cup into the bowl. Quickly swish the cleaner around the bowl with the brush.
2. While the cleaner soaks in, spray the outside of the toilet with your bathroom cleaning spray.
3. Next, use your sponge to clean the outside of the toilet. Pay attention the base and floor around the toilet while you're there. Don't forget the back and the toilet flush buttons – your visitors will notice these!
4. Once that part is clean, use a toilet brush to clean the bowl. Isn't it a great feeling giving it a good old scrub? For that extra sparkling clean, use the brush to get right under the rim.
5. Give it a final flush, stand back and enjoy the sight of your toilet looking like new again! Make sure you dispose of any dirty cleaning products or tools carefully and give those hands a wash.

I bet you can't wait until you can invite some guests over to hear the wonderful things they have to say about your glistening toilet!
