

Creating Raised Salt Art!

Today, we will be painting with salt and glue to create an image with colour and texture! You will need the following materials for today's activity.

- Salt
- Food colouring
- Glue
- Drawing paper
- Pencil
- Paper plates or a container to mix salt and food colouring

First, read the information below...

Next, gather your materials and...

- On a paper plate, add a few drops of food colour on some salt and mix. Repeat this process for all the colours you want!

Then, using your pencil, draw images, patterns or shapes you want on your paper and create your own masterpiece. When you are happy, go over the pencil drawing in glue.

Finally, pour the coloured salt over the glue and watch your creative masterpiece come to life!

Don't forget to take an image of your work and send it through to us!

Challenge: you might like to create a complete scene or portrait and really flex those creative muscles.

Don't forget to upload a photo to OneNote!
