

DOMAIN:

Functional Affordance

Functional affordances relate to the operation of technology; this includes naming, knowing and operating the features of a technology/technologies to perform tasks.

Perceptual Affordance

Perceptual affordances relate to interpretation and being discerning about technology tools and practices for their suitability and in-context operation for outcomes in **known contexts**.

Adaptive Affordance

Adaptive affordances relate to imagining, adapting and extending technology use in previously **unexplored and emerging contexts** for innovative outcomes; this requires some functional knowledge/skills and perceptual experience.
